

**PROGRAMME FOR PORTFOLIO INSURANCE OF LIQUIDITY LOANS FOR EXPORTERS –  
COVID-19 MEASURE OF THE REPUBLIC OF CROATIA TO SUPPORT THE ECONOMY  
PO-OPK-COVID-01/22**

Programme for Portfolio Insurance of Liquidity Loans for Exporters – Covid-19 Measure of the Republic of Croatia to Support the Economy (hereinafter: the Insurance Programme) is implemented by the Croatian Bank for Reconstruction and Development (hereinafter: the Insurer) within the framework of its export credit insurance business for and on behalf of the Republic of Croatia as one of the Government's measures to support the Croatian economy in view of the difficulties caused by the COVID-19 pandemic on the basis of chapter 3.2 of the Communication from the Commission<sup>1</sup>. The Insurance Programme was launched on 7 April 2020 and amended on 30 April 2020, on 13 November 2020, on 28 May 2021 and on 14 January 2022.

**Nature and form of the measure**

The measure is implemented in the form of portfolio insurance of new liquidity loans for exporters through the execution of cooperation agreements under the Insurance Programme between the Insurer and the credit institution that shall cover up to 90% of the exporter's liquidity loan principal amount. Where the coverage is below 90% (10%, 20%, 30%, 40%, 50%, 60%, 70% or 80%), the insurance may also cover the Contracted interest (regular interest, interest during disbursement and grace periods), however the total amount of Indemnity shall in no event exceed 90% of the due principal of the Loan.

The measure is open to all credit institutions in the Republic of Croatia established in the Republic of Croatia (headquarters or subsidiary) that operate in accordance with the Credit Institutions Act (have the licence for conducting operations in the Republic of Croatia) and to HBOR (hereinafter: the Insured). The measure relates only to new liquidity loans and not to already existing ones and, consequently, it does not represent aid to credit institutions.

As financial intermediary, the Insured is obliged to provide an exporter with more favourable loan terms and conditions, e.g. in the form of a higher volume of finance (approval of a higher exposure to exporter), by assuming riskier portfolios (approval of a loan in spite of a riskier rating of exporter), in the form of lower requirements for other collateral, lower interest rates etc, about which the Insured shall inform the Insurer when including the loan into the portfolio as part of the Notification on inclusion.

Exporters will be able to use the liquidity loan Premium subsidy, which will be approved in accordance with the Insurance Premium Subsidy Programme – Covid-19 measure of the Republic of Croatia to support the economy PSP/01-2021 with all amendments thereto (hereinafter: Premium Subsidy Programme) on the basis of chapter 3.1 of the Communication from the Commission.

**Duration of the measure**

The Insurance Programme will be implemented until 30 June 2022. Consequently, the Insured may include those loans into the Portfolio, with respect to which Loan Contracts were executed by 30 June 2022.

<sup>1</sup> COMMUNICATION FROM THE COMMISSION - Temporary Framework for State aid measures to support the economy in the current COVID-19 outbreak (OJ C 911, 20. 3. 2020) and Amendments to the Temporary Framework for State aid measures to support the economy in the current COVID-19 outbreak (OJ C 1121, 4. 4. 2020; OJ C 164, 13. 5. 2020; OJ C 218, 2. 7. 2020; OJ C 3401, 13. 10. 2020, OJ C 34, 1. 2. 2021 and OJ C 473, 24.11.2021)

### **Beneficiaries of the measure**

Final beneficiaries of this measure are exporters in the Republic of Croatia in accordance with the Eligibility Criteria for the inclusion of loans in the portfolio with regard to the Borrower that require liquidity for their activities, because they face difficulties as a result of the pandemic caused by the COVID-19 virus (entrepreneurs that were not in difficulties on 31 December 2019, but that have experienced difficulties in their operations as a result of the pandemic caused by the COVID-19 virus).

Under the Insurance Programme, aid cannot be granted to entrepreneurs that are subject to an outstanding recovery order on the basis of a previous decision of the European Commission declaring aid illegal and incompatible with the internal market.<sup>2</sup>

### **Sectoral and regional scope of the measure**

The measure is open to exporters from all sectors and will be applied in the entire territory of the Republic of Croatia.

The Insurance Programme enables the insurance of liquidity loans with the Loan duration of up to six years that the Insured approve to entrepreneurs having, in the last business year that is relevant for their operations in accordance with the entrepreneur's statement (not earlier than 2019) and for that official annual financial statements are available, generated: a) at least 10% of their operating income from exports, or b) more than 50% of their operating income from accommodation revenues where in that year the share of realised overnight stays of non-residents of the Republic of Croatia in the total number of overnight stays is at least 30%, or c) at least 20% of their income from revenues in cooperation with one or more exporters (hereinafter the Exporters)<sup>3</sup>. The Loan duration includes the disbursement of the Loan and the Loan repayment period, up to one-year grace period and up to five-year repayment period included, where the Loan duration shall in no event last longer than six years.

The Insurer will conclude the Portfolio Insurance Agreement with an individual Insured establishing their business cooperation on the implementation of this Insurance Programme and, by the Agreement, the Insurer insures the Loans included into the Portfolio by the Insured against non-payment. The Insured shall not submit individual applications for insurance but shall include loans in the insured portfolio themselves and shall report to the Insurer on such approved loans a quarterly basis. As an exception, for loans amounting to HRK 37 million or more, or amounting to the same equivalent value at the middle exchange rate of the Croatian National Bank for EUR applicable on the day when the Portfolio Insurance Agreement is executed between the Insurer and the Insured, which the Insured wishes to include in the Portfolio with a coverage higher than 50%, the Insured shall request from the Insurer prior consent for the inclusion of the respective loans in the Portfolio.

In recovery collection, inflows from all collateral instruments contracted under the Loan, if any, shall be divided between the Insurer and the Insured pro rata in the amount of the contracted insurance coverage.

An integral part of the Portfolio Insurance Agreement is, inter alia, the document: the General Terms and Conditions of Insurance of Exporters' Liquidity Loan Portfolio – Measure Covid-19 OU-OPK-COVID-01/22 (hereinafter: the General Terms and Conditions) that contains the rights and obligations of the Insured and the Insurer. In the event of a discrepancy between a particular provision of the General Terms and Conditions and the Insurance Programme, the provisions of the General Terms and Conditions shall prevail.

### **Premium**

The Insurer shall charge the Premium for Loan insurance from the Insured.

<sup>2</sup> Determined on the basis of Aid Statement signed by entrepreneur under criminal and material responsibility

<sup>3</sup> The complete Eligibility Criteria for the inclusion of loans in the portfolio and Eligibility Criteria for changing loan repayment period due to business reasons can be found on pages from 6 to 9 of this Insurance Programme.

The Insured undertakes to pay to the Insurer the Premium for each Loan included in the Portfolio.<sup>4</sup> The Insured calculates the Premium once for each Loan on the occasion of its inclusion in the Portfolio and displays the calculated amount in the Notification on inclusion.

The Premium is stated and charged in HRK, and for conversion, the selling rate of the Croatian National Bank on the day of invoicing by the Insurer is applied. The Insurer shall issue to the Insured an invoice for the Premium based on the Premium calculation set forth in the Notification on inclusion.

For each Loan, the Premium is calculated as the sum of Premiums for each year of the Loan duration by applying the appropriate annual premium rate on the balance of debt based on the preliminary repayment schedule for the Loan principal (assuming that the Loan principal is repaid duly) for the Loan duration:

- In the Loan disbursement period (up to the beginning of the Loan repayment period), the Premium is calculated on the amount of the approved loan principal regardless of the disbursement status of the Loan.
- Loan duration is calculated in accordance with the calendar year and the overall Loan duration cannot last longer than six calendar years (e.g. if a Loan Contract is executed on 15 February 2021, the last Loan repayment date must be no later than 15 February 2027).
- Annual premium rates are determined in accordance with the size of the Borrower and the level of the coverage as follows:

Table 1 PROGRESSIVE\* annual premium rates by years of Loan duration

Coverage	Type of Borrower	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6

**Premium calculation example:**

*On 1 December 2020, the Insured executed a Loan Contract in the Loan amount of HRK 1.5 million with an SME that is to be repaid in five equal three-monthly instalments, of which the first one matures on 18 October 2021 and the last one on 18 October 2022. The Loan duration is 1 year, 10 months and 17 days. Repayment schedule:*

	Date	Instalment	Debt under Loan principal (HRK)
Year 1 of Loan duration	1 December 2020	Initial balance	1,500,000.00
	18 October 2021	1	1,200,000.00
	1 December 2021	/	1,200,000.00
Year 2 of Loan duration	18 January 2022	2	900,000.00
	18 April 2022	3	600,000.00
	18 July 2022	4	300,000.00
	18 October 2022	5	0.00

a) **For 70% coverage:** for the entire Loan duration, the fixed annual premium rate of 0.17% is applied on the Loan principal balance based on the repayment schedule by taking into account the actual number of days of Loan principal balance in the calendar year. Calculation items:

Date	Principal balance	Principal for calculation	P.R.	Number of days	Premium	Note (description)
1 December 2020	1,500,000.00	1,500,000.00	0.17%	30/366 + 291/365	2,242.03	Loan Contract execution date; 30/366 number of Loan duration days in 2020 (leap year), 291/365 number of Loan duration days in 2021 until the start of the Loan repayment period

### Loan approval

Loan approval is performed independently by the Insured in accordance with its own assessment of the Exporter's creditworthiness and in accordance with its own procedures, where the Loan that the Insured wishes to include in the Portfolio must meet the **Eligibility criteria for the inclusion of loans in the portfolio defined in this Insurance Programme**. The Highest portfolio volume and other specific terms and conditions of insurance shall be determined in the Portfolio Insurance Agreement.

The Insured includes Loans in the Portfolio in the manner that, upon the expiry of each Calendar quarter, it submits to the Insurer the Notification on inclusion containing data on all loans it wishes to include in the Portfolio and for which the Loan Contract has been concluded in the respective Calendar quarter, accompanied by Loan repayment preliminary schedule.

Pursuant to the mentioned Notification on inclusion, the Insurer shall issue an invoice for the Premium to the Insured.

The Insured shall report quarterly to the Insurer on the Loan balance, on repaid Loans, on the change of the Loan repayment period, and once a year on recovery of the Loans for which the Indemnity has been paid.

### Claim

In the case of non-payment under the Loan, the Insured shall submit to the Insurer a Claim upon the expiry of 30 calendar days from the Day of calculation together with the attached documentation defined in the General Terms and Conditions. The Insurer will give its response regarding the submitted Claim within 35 calendar days. In case the Claim has been accepted, the Insurer will, within ten calendar days, pay the Indemnity to the Insured up to the amount of contracted Coverage rate (up to 90%) of Loss. For HRK loans, the Indemnity is stated and paid in kunas, and for foreign currency indexed loans in kunas or in kuna equivalent value in accordance with the selling exchange rate of the Croatian National Bank on the payment date.

Before the Indemnity payment, the Insured shall conclude the Recovery Contract with the Insurer regulating, among others, their rights and obligations in respect of receivables collection under the Loan after the Indemnity payment.

### Recovery

Recovery from the Exporter after the paid Indemnity is made by the Insured independently for its own and for the Insurer's receivables. In case of recovery, the Insured shall forward to the Insurer up to 90% of the collected amount, or in accordance with the contracted Coverage rate if it is lower than 90%, respectively.

The Insurer shall compensate the Insured for up to 90% of incurred Costs of Enforced Collection, or in accordance with the contracted Coverage rate if it is lower than 90%, respectively, provided that the Insured has obtained a prior or subsequent written consent for the mentioned Costs from the Insurer.

**Change of the Loan repayment period due to business reasons and Premium for the change of the loan repayment period**

For Loans included in the Portfolio, for which no Indemnity has been paid, the Insured is authorised to modify the Loan repayment period on its own if the Extension of the Loan repayment period is shorter than 6 months or equals 6 months; in this case, the Insured is not obliged to pay an additional Premium. If the Extension of the Loan repayment period is longer than 6 months, then the Insured is authorised to modify it on its own, provided that such Change of the Loan repayment period is made due to business reasons, i.e. further need of the Exporter for liquidity funds and provided that on the day of the change approval, the **Eligibility criteria for the change of the loan repayment period due to business reasons** have been met. In such a case, the Insured is obliged to calculate and pay the Premium for the change of the loan repayment period to the Insurer. The calculated amount of the Premium for the change of the loan repayment period is stated by the Insured in the Notification on the change of the loan repayment period.

The Premium for the change of the loan repayment period is calculated as the difference between the Premium for new Loan duration and the Premium for initial Loan duration. The Premium for new Loan duration is calculated in the same way as the Premium for the initial Loan duration (Loan duration start date is the Loan Contract execution date), where the repayment schedule taken into account for the calculation includes the initial Loan repayment from the Loan Contract execution date until the Loan rescheduling date and the new Loan repayment for the remaining Loan duration. Premium for the change of the loan repayment period cannot be subsidised under the Subsidy Programme.

## Eligibility criteria for inclusion of loans in the portfolio

Below are the **Eligibility criteria for inclusion of loans in the portfolio** that must be met so that the Loans may be insured:

### 1. ELIGIBILITY CRITERIA FOR THE INCLUSION OF LOANS IN THE PORTFOLIO

#### 1.1. WITH RESPECT TO THE EXPORTER (BORROWER)

1.1.1. The following criteria must be fulfilled on the day of the Loan approval, whereby the documentation from which the Insured has established the facts during the processing of the loan application will be considered relevant:

---

<b>Exporter</b>	<p>The Borrower may be any entity that performs economic activity, regardless of its legal form, and has its registered headquarters in the Republic of Croatia (companies, crafts businesses, other legal entities and natural persons - sole traders) and</p> <ul style="list-style-type: none"><li>○ was not in difficulties on 31 December 2019 (in terms of the General Block Exemption Regulation<sup>5</sup>), where the Insured is obliged to establish that the Borrower stated in the Aid Certificate that it was not in difficulties, and regardless of the statements of the Borrower, the Insured is obliged to check and establish on its own that the Borrower does not meet any of the following conditions (that will be mentioned in the statement submitted to the Insurer with the Claim):<ul style="list-style-type: none"><li>a) for limited liability companies (capital companies: joint stock companies, limited liability companies etc.) capital and reserves amount to less than 50% of subscribed equity capital, i.e. for unlimited liability companies, more than half of the total assets have been reduced due to transferred losses,</li><li>b) pre-bankruptcy, bankruptcy or liquidation proceedings have been initiated against the company,</li><li>c) for large enterprises, if during the last two years, both of the following conditions have been cumulatively met in both the years:<ul style="list-style-type: none"><li>i. the ratio of long-term financial liabilities and capital and reserves of entrepreneur is higher than 7.5,</li><li>ii. the ratio of EBITDA to interest expense on financial liabilities is lower than 1.0.</li></ul></li></ul></li></ul> <p>In the case of entrepreneurs who are part of a group, the criteria are generally considered at the level of the entrepreneur, but if the mutual relations of the companies in the group indicate interdependence in business (most often when the companies in the group operate in the same or neighbouring markets) and difficulties of the entire group, it is necessary to check the criteria at the level of the group as well.</p> <p>In the case of entrepreneurs that have been operating for less than three years on 31 December 2019 with respect to the date of their incorporation (entrepreneurs incorporated after 31 December 2016), the Insured considers only the criterion under b).</p> <ul style="list-style-type: none"><li>○ has encountered business difficulties as a result of the pandemic caused by the COVID-19 virus (according to FINA COVID score scale<sup>6</sup> it was rated</li></ul>
-----------------	---

---

<sup>5</sup> Commission Regulation (EU) No. 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty. Text with EEA relevance (OJ L 187, 26 June 2014, pages 1-78), the consolidated text of 27 July 2020.

<sup>6</sup> The FINA COVID score is taken into account, which includes two eliminating criteria (1 – The entrepreneur is on the list of salary non-payers according to the latest available data; 2 – The entrepreneur is on the list of tax non-payers according to the latest available data).

---

within the range 0 - 700 points; for Borrowers for which FINA cannot calculate the COVID score, the Insured will establish that the business is endangered by COVID); COVID score must not be older than 30 calendar days from the date of receipt of the loan application,

- the Insured's exposure to the Borrower on 31 December 2019 was classified as a risk group A with the Insured (according to the Decision of the Croatian National Bank<sup>7</sup>).

If the Insured has not been exposed to the Borrower at the given date, this criterion shall not apply,

- has generated at least 10% of its operating income from exports<sup>8</sup> in the financial year that is relevant for its operations in accordance with the entrepreneur's statement (not earlier than 2019) and for that company's official annual financial statements are available (exporter)

Or

has generated more than 50% of its operating income from accommodation revenues in the financial year that is relevant for its operations in accordance with the entrepreneur's statement (not earlier than 2019) and for that company's official annual financial statements are available, where in that year the share of realised overnight stays of non-residents of the Republic of Croatia in the total number of overnight stays<sup>9</sup> is at least 30% (exporter)

Or

has generated at least 20% of its operating income from revenues in cooperation with one or more exporters referred to in the above paragraph in the financial year that is relevant for its operations in accordance with the entrepreneur's statement (not earlier than 2019) and for that company's official annual financial statements are available (exporter's supplier)<sup>10</sup> and

- is not majority state-owned<sup>11</sup> (50% and more).

---

## Size

The Borrower is by its size (pursuant to the EU definition<sup>12</sup>):

- small and medium-sized entrepreneur in need of a liquidity loan in an amount higher than HRK 15,000,000.00 or
- small and medium-sized entrepreneur in need of a liquidity loan in an amount of 15,000,000.00 or less, if, for justified reasons, it cannot obtain a guarantee from HAMAG-BICRO (for example, for reasons of non-eligible activity, already realised maximum de minimis aid etc.), which is established by the Insured through a written statement of the Borrower or
- large entrepreneur, regardless of the loan amount.

---

<sup>7</sup> Decision on the classification of exposures into risk groups and the method of determining credit losses (Official Gazette, Nos. 114/2017 and 110/2018)

<sup>8</sup> The term "export revenues" means any income earned with non-residents of the Republic of Croatia. The Insurer establishes export revenues on the basis of the Borrower's official financial statements or, if export revenues are not stated in the financial statements, on the basis of other documentation by which the Insured establishes the fulfilment of this criterion (e.g. written statement of the Borrower with documents signed by authorised representatives or legal representatives or proxies of the Borrower, which can be checked and confirmed, such as gross balance in accordance with the official financial statements, customer card accounts with turnover in that year, contracts with customers which were partially or fully realised in that year, BON1 with data on export revenues in that year, internal or external reports of the Borrower containing data on export revenues, etc.).

<sup>9</sup> The Insured determines the share of realised overnight stays of non-residents of the Republic of Croatia in the total number of overnight stays on the basis of the eVisitor report.

<sup>10</sup> The Insured determines the fulfilment of the criterion that the Borrower is exporter's supplier on the basis of a written statement of the Borrower, along with documents verifying and confirming the statement (documents proving that the Borrower is a supplier to one or more companies and that these companies are exporters; for examples of documents see previous two footnotes).

<sup>11</sup> Companies that are majority-owned by the state are companies in which the Republic of Croatia has a majority stake or a majority share in the subscribed capital

<sup>12</sup> Commission Recommendation No. 2003/361/EC of 6 May 2003 concerning the definition of micro, small and medium-sized enterprises (OJ L 124, 20 May 2003, pages 36-41)

<b>Activity</b>	Any activity of the Borrower is considered eligible.
<b>Others</b>	The creditworthiness of the Borrower has been assessed favourably by the Insured in accordance with the regulations, its standard internal documents, rules and procedures, as the Insured otherwise treats the liquidity loans approved to Borrowers of the same or similar risk category.

## 1.2. WITH RESPECT TO THE LOAN

1.2.1. The following criteria must be fulfilled on the day of Loan approval, whereby the documentation from which the Insured has established the facts during the processing of the loan application will be deemed relevant:

<b>Type</b>	Individual, framework or revolving loans
<b>Purpose</b>	<ul style="list-style-type: none"> <li>○ Loans must be new liquidity loans.</li> <li>○ Loan funds must not be disbursed by the Insured and the Borrower must not use them to refinance existing loans with the Insured or other financial institutions, or to prematurely settle obligations for existing debts (leasing loans, etc.).</li> <li>○ Loan funds may be disbursed by the Insured and the Borrower may use them to settle liabilities that regularly become due during the period of Loan disbursement or have regularly become due before the period of Loan disbursement, to the Insured and other financial institutions in accordance with repayment schedules at the time of the Loan Contract execution, where the maximum amount of the Loan that can be disbursed and used to settle these liabilities is 35% of the total amount of the Loan.</li> <li>○ Loan funds may be disbursed by the Insured and the Borrower may also use them to reimburse the Borrower (reimbursement) for expenses previously paid by the Borrower, incurred no earlier than 1 March 2020 and assessed by the Insured as eligible in accordance with the eligible purpose of the Loan in accordance with the Insurance Programme, where in case of reimbursement of costs paid by the Borrower to financial institutions the amount of reimbursement for these costs may amount to a maximum of 35% of the total amount of the Loan.</li> <li>○ A maximum of 35% of the total amount of the Loan altogether may be used for the payment of liabilities to financial institutions referred to in the previous two paragraphs (settlement of regular maturities and reimbursements).</li> <li>○ If the Loan funds are disbursed in favour of the Borrower, and the Insured does not check the purpose of using these Loan funds according to regulations, its standard procedures and the Loan Contract, the Insured is released from the liability for further verification of the purpose.</li> </ul>
